

Unmatched Parts Availability

The ValTek team designs, manufactures, inspects, stocks, assembles and tests all parts in-house for a guaranteed OEM application. We have spent decades engineering, manufacturing, improving and developing the best performing fluid end and pump parts available on the market today. With components manufactured at our newly expanded Permian-based facility, we control the quality and more importantly, we stand behind our products.

PACKING

Built to last, ValTek's newest line of packing withstands the most extreme environments. Designed to deliver high-performance and abrasion resistance, ValTek's unique composition includes packing components with proprietary material blends and compounds.

- Field-proven performance
- Unparalleled wear and temperature characteristics
- Compatible with all major pump manufacturers
- Fabric-coated design providing abrasion resistance for pressure rings

VALVES & SEATS

Compatible with all major OEMs, our valves and seats come in a variety of sizes and styles.

VALVES

- Wing guided
- Multiple sizes available

SEATS

- Forged
- Cased, hardened surfaces
- Multiple sizes available

PLUNGERS

Designed for precision, ValTek's plungers come in various sizes and styles that are compatible with all major OEMs.

- Hard-faced, precision finished wear surfaces
- Multiple coatings available

FLUID END PARTS

- Retainer nuts
- Packing nuts
- Flanges
- Suction & discharge covers
- Plunger clamps
- Seals & gaskets

POWER END PARTS

- Pinion bearings
- Bull gears
- Pinion shafts
- Crankshafts
- Main bearings
- Pinion bearings
- Connecting rod bearings
- Connecting rods
- Crossheads
- Pony rods & stay rods

TOOLS

- Hydraulic seat puller kits
- Slide hammers
- Packing nut wrenches
- Suction cover pullers
- Hex wrenches

PARTS CONSIGNMENT

Need parts FAST? Request a consignment box at your preferred location with access to parts you need to ensure service never stops. Our flexible, convenient program reduces project downtime and streamlines inventory consumption at your yard. Our consignment specialists are equipped to customize your parts needs and add them to your unique consignment box within days.

With ValTek's consignment program, you'll have access to these power end parts, right at your fingertips:

- Main bearings
- Pinion bearings
- Connecting rod bearings
- Connecting rods
- Crossheads
- Pony rods and stay rods

ValTek is dedicated to manufacturing premium OEM parts to preserve the life of your pump and sustain peak performance. Our in-house inventory is extensive, and you can purchase high-performing parts directly or via ValTek's consignment process with an easy, onsite delivery. Our parts enable longer field performance with extreme durability. You can choose to install the parts yourself, or feel free to sit back, and let us do the work for you.
