VALTEK PACKING FRAC & WELL SERVICE

GD Energy Products' ValTek Packing is built to last. Designed to excel in standard operating conditions up to 10,000 PSI, it delivers reliable performance with a lower barrier of entry - ensuring seamless compatibility with GD and legacy fluid ends. Engineered with proprietary material blends, ValTek Packing offers enhanced abrasion resistance for added durability in the field.

FEATURES & BENEFITS

- Reliable wear and temperature characteristics
- Delivers optimum performance in low to medium pressures
- Industry-standard hard components for seamless integration with existing systems
- An accessible solution for operators seeking dependable packing at a lower investment
- Provides greater operational flexibility by fitting most major competitor fluid ends
